▼ Front View

1. Drive Tray Ejection Button
2. LED Indicator (Device Power : Solid Blue/Drive Access : Flashing Blue)

▼ Rear View

Note : In order to function properly, please connect both 15 pin power connectors to the enclosure when using the device.

The fan speed control has three settings: High, Low(Default) and Off settings. The High setting sets the fan at 100% of the maximum output and in Low setting the fan is at 60% of its maximum output.

▼ The ExpressTray supports tool-less drive installation. The patented mechanical design inside the enclosure secures the drive once the ExpressTray been inserted into the enclosure. Please do not flip the ExpressTray when there is a hard drive or solid state drive placed on it.

Optional - Two M3*4 screw can be installed on the bottom backside of the tray for extra drive stability.
