3-1

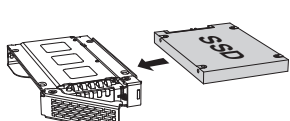

Push the drive tray ejection button to release the drive tray latch.

3-2

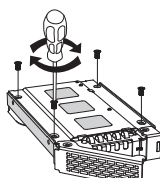

Pull the drive tray from the device.

3-3

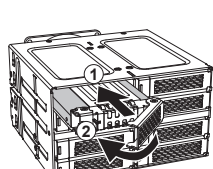

Flip both drive and tray to the bottom side and slide in the drive as shown. Make sure the U.2 connector is facing the rear side of the drive tray.

3-4

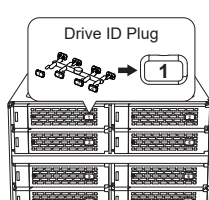

Use the included M3*4 screws to secure the drive.

3-5

Insert the drive tray back into the device and close the drive tray latch to complete the drive installation.

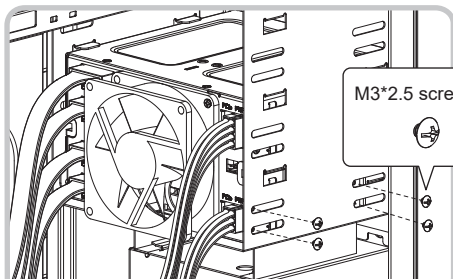

3-6

(OPTIONAL) Gently twist off the drive ID plug from the mold and place it into the desired drive ID slot.
